## **WELL SERVICE EQUIPMENT FIRM CHOOSES HOUSTON FOR NEW FACILITIES**

FEBRUARY 22, 2011 - CALGARY, ALBERTA - **ENERFLOW INDUSTRIES INC.:**  
Strong demand for Pressure Pumping equipment in the North American oil and gas industry has advanced Enerflow's expansion into Houston, Texas.

Enerflow announces the immediate opening of a manufacturing facility in Houston, Texas. A second facility in Houston already under construction has a planned opening in the third quarter of 2011.

In the wake of this aggressive expansion Enerflow anticipates the creation of over 300 hundred jobs. Investment of over 15 million dollars in infrastructure will provide a demand for services from over 200 local subcontractors and suppliers.

~ MORE ~

With locations in Tulsa, Oklahoma and Calgary, Alberta Canada, Enerflow Industries Inc. manufactures a wide array of industrial oilfield service equipment including fracturing, cementing, nitrogen, drilling and well service rigs.
