

ENERFLOW INDUSTRIES INC.

NEWSFLOW

FEBRUARY 2011

WE ARE GROWING AGAIN WITH SOMETHING NEW!

Here we grow again!!! With new customers in the USA and increased demand for products; Enerflow Industries inc. is embarking on an expansion to Houston, Texas. Our new facility located in the city limits of Houston, TX will be ready to begin production April, 2011. This expansion will create even more opportunities for our customers to access superior equipment.

STATE OF THE ART SANDBLAST AND PAINT TULSA, OKLAHOMA

Construction on Tulsa's new Paint Shop

The team in Tulsa, OK is looking forward to their new state of the art facilities for painting and sandblasting! Construction has started and the goal is to be operational in the 3rd Quarter

John Power, General Manager and his team continue to experience growth in demand for our product and as a result the team already exceeds 70 people! Congratulations Tulsa!

Tulsa's Manufacturing Shop in full swing

CALGARY EXPERIENCES UNPRECEDENTED GROWTH

2010 was busy and 2011 is looking even busier. We are very proud of the accomplishments of everyone who contributes to the success of Enerflow. In the fall of 2010 we added Shop 4 under the leadership of Jeff Vredik. The focus of Shop 4 is on the mechanical completion of Frac Pumps.

GOOD NEWS

Nathan Schmidt from Calgary Shop 3 continues to improve following major injuries suffered in a car accident in December, 2010. Many of Nathan's colleagues at Shop 3 have generously contributed to his recovery by donating a "day of pay" to Nathan and his family. Enerflow Industries Inc. provided a "matching contribution" to the family as well! We wish Nathan a continued recovery and return to work soon!

POINTS OF INTEREST

The internal API Audit was conducted in the past two weeks. The external Audit will be conducted in March.
